

Personality/Fixture files for Luxibel B Par105RGBW

The unit has 3 different operating modes:

- I. 4 Channel - can be patched as a generic RGBW (red, green, blue, white) fixture
- II. 6 channel - can be patched as a generic IRGBWS (intensity, red, green, blue, white, strobe) fixture
- III. 8 channel - see below

For up-to-date information and files, please see below:

GrandMA3 family

Personality file currently not supported. Please import from GrandMA2 software 3.4.0 or higher

GrandMA2 family

Custom fixture files always ship with a show file, not a desk. Please download the xml files [here](#), or from MA FixtureShare and place on a USB stick in the ~/gma2/library/ folder

Avolites

All variants are contained within the latest Titan Fixture Library. Please visit <http://personalities.avolites.com> for the latest version.

Chamsys

1, 6 and 8ch mode are contained within the latest fixture library. Please visit https://secure.chamsys.co.uk/bugtracker/personality_list.php for the latest version or alternatively, download the .hed files [here](#)

Other

Please contact TSL directly for assistance. Alternatively, the DMX Chart can be obtained [here](#)

We hope you'll enjoy the Luxibel units as much as we do and look forward to seeing them on your gig soon!
